COLLABRASPACE ENTERS THE EMPLOYERS HALL OF FAME

Baltimore Magazine Names CollabraSpace One of the “Best Places to Work” Three Years in a Row

Annapolis, MD – January 25, 2011 – CollabraSpace has been recognized by Baltimore magazine as one of the “Best Places to Work” for the third year in a row. This year the magazine honored companies who have been awarded multiple times by placing them in the inaugural "Best Places to Work" Hall of Fame.

Ken Iglehart, the Managing Editor at Baltimore magazine, said, “Collabraspace is one of those handful of firms that has really stood out year after year in our annual “Best Places to Work” survey. Though it’s a small firm--- and has faced the same national economic challenges that all companies have in the past few years--it has continued to compete aggressively for the loyalty of its 50-odd employees with consistently exceptional health insurance benefits, its unusual paid sabbaticals, as well as its bonus plan and profit sharing.”

CollabraSpace continues to grow because of the loyalty the company shows to its employees. “We take great pride in being named one of the “Best Places to Work” for the third time,” said Ray Schwemmer, CollabraSpace’s president and CEO. “Here at CollabraSpace, we know that our employees and all of their hard work is the reason we continue to succeed. We want to ensure that our benefits meet the needs of all of our employees, so we work with them and continue to grow and improve as a company.”

About CollabraSpace

Headquartered in Annapolis, Maryland, CollabraSpace is an authority on web-based collaboration solutions for a wide variety of customers with dispersed workforces. These customers include large government organizations such as NSA, NGA and Defense Department elements, as well as large commercial accounts. The company develops and provides secure web-based collaboration software and platforms that include audio/video sharing, document sharing and storage, white boarding and instant messaging, as well as a J2EE application development platform. More information about CollabraSpace can be found at www.collabraspace.com.
